An aerial photograph of a city block. A red circle is drawn around a building located at the intersection of two streets. The building is a multi-story structure with a flat roof and a grid-like facade. The surrounding area includes other buildings, streets, and some greenery.

A line drawing of a house with a chimney and a porch. The house has a gabled roof and a chimney on the right side. A porch with a flat roof is attached to the left side of the house. The drawing is simple and uses black lines on a white background.

A detailed technical cross-section drawing of a building's roof and upper walls. The drawing shows the internal structure, including the roof slope, rafters, and various layers of insulation and structural materials. Key components are labeled with letters and numbers, and dimensions are provided for specific parts. The drawing is oriented horizontally, with the roof slope on the right side.

This architectural drawing shows a building facade with a prominent tree in the foreground. The building features a mix of solid and perforated walls, with a large, dark, rectangular feature on the upper left. The tree is tall and slender, with a dense canopy of leaves. The drawing is a black and white line art style.

This architectural section drawing shows a building with a red-outlined structure. The structure has a balcony on the upper floor and a chimney on the roof. The drawing is a technical representation of the building's internal structure and layout.
